

Quiet Time #12 Kingdom Conquering Faith

Scriptures: Hebrews 11:32-40

Summary and Lessons:

What an awesome list of feats! All done by the power of God working through people just like us! God is truly amazing. Thinking of these victories should cause us to stand in awe of God and to have faith that amazes Jesus! What are some of the amazing feats you've accomplished through your faith? When was the last time you really thought about them, and about how good it felt to know that God was with in all those victories?

God's power throughout the centuries has lifted up and brought down kingdoms. He has turned faltering weaknesses into towering strengths. God's power and purpose have not changed. The change comes, from generation to generation, from person to person, in the level of faith. Our faith must grow. There are many kingdoms to be conquered for the Kingdom of God. What are the "kingdoms" in your life that need to be conquered for the glory of God?

Personal Application:

1. Review briefly your notes from the beginning of this quiet time series. How has your faith grown?
2. Can I see God doing these very things with me as His kingdom spreads around the world?

Take it to God:

1. Pray for the nations and leaders of the world.
2. Pray for the specific weaknesses in your life (that God will turn them to strengths).
3. Thank God for his love and belief in you.
